CURES AND COMFORT FOR THE BED-RIDDEN.
—BY
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

In this class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They can not be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, cause delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for ears from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect he rown cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Grave'

Are immediately relieved and ultimately cured if this ntment be well rubbed twice a day, into the small of he back, over the regions of the kidneys to which it will radually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effec a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases

THE PERFECTION OF PREPARED COCOA.
MARAVILLA COCOA.
SOLE PROPRIETORS,
TAYLOR BROTHERS,
LONDON.
THE COCOA (OR CACAO) OF MARAVILLA, is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homeopaths and cocoa-drinkers generally, but many who had hitherto not found any preparat on to suit them, have after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.
"AN UNPRECEDENTED SUCCESS."
See following Extract from the Globe of May 14, 1868.
"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.
Adapting their perfect system of preparation, to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."
Sold in packets only by all grocers, of whom also may be had Taylor Brothers' Original HOMŒOPATHIC COCOA and SOLUBLE CHOCOLATE.

THE BRITISH COLONIST.

Friday Morning, June 25, 1869.

English Mail Summary.

The Active brings us London dates to the 30th May: Politics in England have been in complete abeyance, the Ministers, with the exception of Mr. W. E. Foster, making holyday during the Whitsuntide recess. The North Norfolk election inquiry was concluded on the 29th. Mr. Justice Blackburn declared the sitting members, Hon. F. Walpole and Sir E. Lacon, duly elected, and condemned the petitioner in costs Mr. W. E. Forster, in a speech to his constituents at Bradford, strongly resented the demands made upon Great Britain by Mr. Sumner in the United States Senate, and declared that, although he had ever been a fervent partisan of the cause of the Northern States, he could not admit the justice of the charges now made against Great Britain The investigation of the charges made against the Secretary and late Directors of the English Joint-Stock Bank has brought to light some strange transactions, of which, however, the Directors do not appear to have been cognizant. Mr. Peter Cunningham, the well-known antiquarian writer, is dead. The Rev. Mr. Speke, whose sudden disappearance caused much excitement a short time since, has just married. The episode of the Mayoralty of Cork has been closed by the election of Mr. Hegarty, a Moderate Liberal: Several of the persons wounded in the late riot near Tralee are in a dangerous condition. Threatening notices to landlords are said to be of continual occurrence in Tipperary. A Bombay telegram informs us that Shere Ali is preparing to attack Tuskistan, and there are rumours of the onward movements of Russian troops. The police in London have now to a great extent adopted moustaches and beard, the compulsory use of the razor having been abolished by the new Commissioner. Street assaults and robberies still continue to be very frequent in the metropolis. A subscription has been commenced to provide an annuity for Mr. G. Hudson, the once Railway King, who is now in great poverty. The Manchester *Guardian* says: The exodus of work people from Preston is expected to be on a most extensive scale when the arrangements which are to be submitted to the public meeting in Preston to-night [May 28th] are completed for granting free or assisted passages for cotton operatives. This desire to emigrate results, as the operatives themselves express it, from a firm conviction that the late reduction in that town in the rate of wages arose, not so much from a depressed and unremunerative state of the market, as from an inclination on the part of the masters 'to punish the workingman;' and they having practically failed to get an even-handed adjustment of their claims by resorting to the imperative and devastating arbitrations of a strike, assert that nothing will now ameliorate their present distressed condition but some great scheme of free emigration to the West. They say that nearly one-half of the operative weavers in the town would, if free passages could be got, at once leave Preston for the labor markets of America. The Manchester *Examiner* states that Messrs Wallace and Murray, manufacturers of Glasgow, have suspended with debts and liabilities of £12 000 to 15,000. Messrs Carter and Gathwaite, Manchester warehousemen, have also succumbed, but their liabilities are alleged to be small. Mr Shackleton Smith, of Butts Mill Gomersall, has called a meeting of his creditors. Messrs Hatton & co., of Bailey Hall Mills, Halifax, woollen manufacturers, have made an assignment. The Birmingham *Post* says it is feared that the estate of Messrs Hallam Mudge & Co., tin plate workers, of Morristown, near Swansea, is likely to be thrown into bankruptcy, owing to the necessity to decide some asserted preferential claims. The total liabilities reach £100,000 of which about £40,000 are reported to be secured.

For pure, unadulterated impudence and self conceit, commend us to our morning cotemporary. A three-months' convert to the cause of Free Trade, he already arrogates to himself the title of leader of the party, and proceeds to read out of the organization any one who disputes his right to the title, or ventures to suggest that he should furnish some more tangible proof of his sincerity than mere words will convey. Here is a paper that for years has striven with all the energy of tooth and nail against Free Port and Victoria's best interests, claiming the right to speak and act for Victoria in all things. It is not enough that a man may have been a lifelong Free Trader, incurred sacrifices as such, and advocated in opposition to our cotemporary the very principles he now professes so much anxiety to uphold— should he refuse to bow down and blindly worship this modern Moloch, he is denounced as an enemy to Free Trade and his country. As Squeers would say, "here's richness." Should you attack the *Columbian*, remember, it is not the *Columbian* you attack: It is the concentrated essence of Free Port, done up in rather dingy looking shop paper and retailed in homeopathic doses at the rate of two bits a week. When Augustus wished to rid himself of an enemy he took care to do it not in his own name but in that of the Roman people. He thus engaged the world as a partisan in his quarrel, and dignified his private hate by giving it the air of patriotism. So with our cotemporary; when brought to book for inconsistency, hypocrisy and double dealing, he seeks to make the Free Traders believe that it is *they* and not *himself* who are insulted, while *he* nobly opposes his back to the stripes intended for *them*. But, though martyrdom may have paid at the late capital, it will not be found a profitable investment here, if we may judge from the remarks indulged in towards the paper thus courting immolation at the public expense. Our cotemporary may carry a blacksmith's bellows about in his bosom and "heave deep sighs" without stint. He may even divest a certain fragrant vegetable of its outer covering and deal in crocodile tears at the rate of "forty buckets for one dollar," but he will soon find to his cost that Victorians ask no man to play the *role* of martyr for *them*. A word or two as to Confederation—In his discussion of the Free Port question our cotemporary sinks the great principle of Confederation entirely. He says that Confederation without Free Port will never answer. Why does he say this? Because he seeks to betray the mercantile class into taking their affairs out of their own hands and entrusting them to *"feckless"* politicians from whom there will be no rescue, and who would Confederate them at any cost. That he will fail in this attempt we are certain. The merchants have had enough of professional politicians and middlemen, and intend to manage their little matter of Confederation and Free Port themselves and in their own way.

The Land Act.

EDITOR BRITISH COLONIST:—May I ask for a small space in your paper in which to make some comments on the 13th clause of the "Land Ordinance, 1869?"

"13. The person desiring to acquire any particular plot of land of the character aforesaid shall *before* entering into possession thereof obtain from the Stipendiary Magistrate of the district permission to enter on and pre-empt certain lands to be specified in writing by the applicant." [The italics are my own.]

It is difficult to see any good reason for the roundabout process thus entailed on those desirous of pre-empting land. If a Magistrate cannot refuse to record a pre-emption claim the clause is silly, useless, and in many cases most vexatious. If, on the other hand, the Magistrate be supposed to exercise his discretion as to whether he will allow a pre-emption, he acts judicially outside of court and in an *ex parte* manner.

I can conceive no sensible reason why an intending settler should not make his record as a matter of right and at his own risk. The mere fact of recording a pre-emption claim gives no title, and surely open court is the proper place to settle any dispute which may arise. With reference to mining it is not necessary to obtain the Gold Commissioner's permission to record a claim. The miner records any ground he likes and runs his own risk whether or not he can hold it. Should a dispute arise the matter is settled in Court. This process is simple and satisfactory, and why the same rule should not apply to the recording of land is more than many besides myself can understand.

I have not heard of a Magistrate refusing permission to pre-empt; and in cases where the land sought to be acquired is in the vicinity of the headquarters of a district the intending pre-emptor is not put to much inconvenience, and the clause in question only gives rise to a little red-tapeism which probably might be considered harmless. In many instances, however, such is not the result: allow me to state a by no means improbable case: A would-be settler sees a piece of unoccupied land in the vicinity of Soda Creek which he wishes to record; he has to go or send over one hundred and seventy miles to Lillooet, the headquarters of the district, to obtain permission to pre-empt; after obtaining that permission (assuming that such will be granted) he is then, and not till then, at liberty to set his stakes and enter into possession of the land; he has then either to go or send a second time to Lillooet to make his record, pay the fees and receive from the Magistrate "the Record Certificate." Without doubt this is (to use the very mildest word) a circuitous way of doing that which might, and ought to, be made as simple as possible. During a Magistrate's absence from his district (a by no means unlikely occurrence during the winter) I am at a loss to understand how land can be taken up at all; the Act does not appear to give the Magistrate power to transfer his authority as to giving permission to record land to the officer who may be left in charge.

I have heard one and only one reason advanced as an excuse for the clause alluded to:—that it was framed with the view of preventing the recording of reserved lands. It can, I think, be easily proven that this reason, perhaps it is not the true one, should have had no weight with the makers of the law. The *Government Gazette*, in which reserves are advertised, is sent to the Magistrates, and in the event of a person wishing to record land which had been reserved, nothing could be easier than to inform him that such land came within the limits of a Government reservation. If after such warning the record was insisted on, the more fool he who so insisted. It is most improbable that this would often happen, but if after being cautioned a person was found to be anxious to make the Government a present of eight shillings and four pence, by all means let him do so.

In a few words that which I wish to suggest is this: The principle is mischievous in theory and inconvenient in practice.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.
The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches, COMBINING THE BEST AND LATEST IMPROVEMENT, and at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent more for their watches than is necessary.

THE AMERICAN
SUBMERGED PUMP,
FOR
FIRE, SHIP, HOUSE, FARM, FACTORY
Distillery and Irrigating Purposes.

This valuable pump is being manufactured and sold by the Pacific Pump Manufacturing Company, San Francisco, California, and they place it before the public confident that it will supersede all and any Pump extant for the purposes for which it is designed. It is a
DOUBLE-ACTING, NON-FREEZING FORCE PUMP,
adapted to Deep Wells, and almost every use to which a Pump can be applied. No pains have been spared to test its various qualities, having been subjected to the closest and most severe trials before Civil and Mining Engineers, Insurance Companies and the U. S. Life-Saving Commission of 1867, in the report of which it is the only Hand Pump mentioned notwithstanding many others were submitted for examination. From all and everyone it receives the highest ecomiums of praise.
It has been the aim of the Company to construct it on scientific principles; and it is claimed that no other Pump of the same capacity will do its work with greater ease and freedom than the American Submerged Pump.

A SAMPLE PUMP is now set up on our wharf and the public are invited to inspect its working. R. BRODRICK & CO.

St. John's Day.

Yesterday, the anniversary of the Natal day of St. John the Bapitst, was celebrated in a manner becoming the event by the Masonic Lodges of this City, assisted by Masonic friends from other parts of the Colony. At the hour of 9 a. m., the Members of the Order met in Masonic Hall and the usual ceremonies having been gone through, formed in procession to Christ Cathedral. The Masonic Lodges represented in the line were the District Grand Lodge, E. R., the Provincial Grand Lodge, S. R., the Victoria Lodge, E. R., the British Columbia Lodge, E. R., the Vancouver Lodge, S. R., besides visiting brethren of the Nanaimo, New Westminster and Cariboo Lodges. The R. W. District Grand Master, R. Burnaby, Esq., conducted the Masonic exercises, assisted by the Provincial Grand Master Dr. J. W. Powell, and the Deputy District Grand Master, Hon. Mr. Holbrook. The procession was formed under the direction of L. Franklin, Esq., acting District Grand Master of Ceremonies and was preceded by the Volunteer Band. Upon arrival at the Cathedral, a portion of the Church of England Service was read by the very Rev. Dean Cridge, assisted by Rev. Frank Gribbell, District Grand Chaplain, after which Mr. Gribbell delivered a sermon upon the character and works of St. John the Baptist, from the 5th chapter of St. John, 35th verse :—"He was a burning and a shining light" The Rev. Chaplain said that St. John was in every respect a remarkable man; one whose character it was impossible to study without deriving advantage therefrom. His lot fell upon exceedingly corrupt and difficult times. His advent was foretold by Isaiah and by Malachi; and an angel appeared to Zachriah, his father, announcing his birth with the assurance that he should be a distinguished Prophet and the Most High. After briefly sketching the career of the Prophet, the congregation were exhorted to so act before men by deeds of charity and benevolence and by striving each in his own sphere, as to be a light in the world like St. John. We regret that our limited space will not admit of a more extended allusion to the reverend gentleman's remarks.

After the service a collection was taken up, and the Brethren reformed and returned to Masonic Hall, where they were dismissed.

The brethren and friends, to the number of 250 proceeded by the Enterprise to San Juan Island, where they were received with every courtesy by Captain Delacomb, at the British Camp. The visitors engaged themselves till about 9 p. m., when the steamer left on her return to Victoria. Everything assisted in making the pic-nic a perfect success.

Down—The wires yesterday.

MR. BRIGHT'S LETTER.—Here is a synopsis of Mr. Bright's letter to the Birmingham meeting, which created so great a "bobbery" in the House of Lords:—"Mr. Bright has written a letter to a meeting a Birmingham, in which he says that if the House of Lords delay the passage of the Irish Church Bill, they will stimulate a discussion of the subject which might slumber for years. The value of a Constitution which gives a majority in one House power in the other House against a given policy, may be questioned. Why is it that when the Crown and Commons harmonize with the nation, Lords are in direct opposition? As long as the House of Lords are in harmony with the nation, the country may go on for a long time; but when they thwart its course they may meet unpleasant accidents. Mr. Bright concluded with the counsel that the few good, wise men in the House of Lords may prevail."

THE Chief Justice on Wednesday, at the conclusion of the Barclay Sound murder trials, warmly eulogized the conduct of Captain Christensen, through whose exertions the horrible series of crimes on the west coast was traced out, and two of the savage perpetrators brought to justice. Capt. Christensen is justly entitled to the praise so generously bestowed upon him by his Lordship. His conduct throughout the whole of the trying scene has been noble, and it is but justice to him to say that, but for him, the fate of the John Bright's people would have been wrapped in mystery.

ARRIVAL OF THE S. S. ACTIVE.—The N. P. Transportation Company's steamship Active, Capt. Peter Mackie, arrived at Brodrick's wharf at 3 o'clock yesterday afternoon, having sailed from San Francisco on the 18th instant. The Active brings 25 passengers, a heavy express and mail, and a fair freight. A pleasant and smooth passage is reported. Captain Mackie is an old acquaintance in these waters, having ran on this coast many years ago in the capacity of mate. The passengers speak highly of him. Dr. Turner, of Wells, Fargo & Co., has placed us under obligations for usual favors.

THE ASSIZES.—The Assizes closed yesterday with the trial of George Williams for larceny. Medical testimony proved that the prisoner's mind is unsound. The jury convicted him and he was remanded to await the disposition of the authorities.

THE Caledonians are already bestirring themselves to make their Gathering and Games successful. Few of the many who participated in or witnessed the sports last year will fail to be present on the 5th. The tickets are only 50 cts each. Everybody and his wife ought to buy one apiece and take the children along.

SETTLED.—Lammon, the prosecuting witness in the Greyhound case, is said to have cleared for Portland. It is presumed he was well paid for going.

PARENTS AND CHILDREN must not forget the pleasant pic-nic to San Juan Island on Monday next, of the Sunday School of St. John's. There will be merry doings.

THE FIDELITER—It is asserted that Capt. John E. White, of the U. S. Revenue service, is in command of the steamer Fideliter for Sitka.

CAPT. R. W. TORRENS, formerly Clerk of the Vancouver Island Assembly, has been appointed head Constable of Salford, England.

THE bark Zephyr discharged cargo yesterday, and will sail for Steilacoom, W. T, to-day.

TO SAIL.—The steamship Active, at nine o'clock on Sunday morning, for San Francisco direct.

READ the intellectual tilt of George Francis Train with Hardy Gillard. It will repay the trouble.

POLICE COURT, yesterday, *nil*. Business, yesterday, *nil*.

TRAIN was announced to sail for Oregon on the 24th inst.

ANECDOTE OF DISRAELI'S WIFE.—*Lippincott's Journal*, a New York paper, relates the following:—"A story is told of Lady Beaconsfield's devotion to her lord and his ambition, which, if true, is a touching commentary on the unselfishness of womanly affection. On one occasion, when when Disraeli was Chancellor of the Exchequer, his wife accompanied him to the Parliament House. It was 'Budget' night—the most momentous night of the session to the Chancellor of the Exchequer, for he had to unfold his financial plans for the ensuing year to a critical and not too easily satisfied House. Disraeli, as he took his place in the carriage, was wholly wrapt up in his subject and his figures. It was a crisis in his career. If he failed this night he might well take Wolsey's advice to Cromwell, 'Fling away ambition!' His wife entered the carriage after him softly, so as not to disturb the thinker. In getting in however, her finger was caught by the door which shutting upon it, jammed it terribly and held it so fast that she could not withdraw it. She uttered no cry, made no movement; her pain and agony must have been intense. There was the finger crushed between the panels, to speak or even to endeavor to withdraw it would disturb her lord—would drive the figures and arguments from his head. So there stayed the finger, every moment becoming more painful, until they reached the House. Nor did Disraeli hear a word of it until long after the famous debate of that night had become history. All that evening the faithful wife sat in the gallery, that her husband's quick glancing eye might not miss her from it, she bore the pain like a martyr and like woman who loves. No wonder that by her husband's acts she has become Viscountess Beaconsfield. Still less wonder that, as Lady Beaconsfield, she is honored in England's proudest castles, and has taken her place in the hereditary society as naturally and easily as if she too had been 'to the manor born.'

Great Fun at San Francisco—Hardy Gillard, a former Victorian, beards Train in his Den, and gets bearded in return.

From the San Francisco Times, June 7th.

The most successful farce which has yet been produced before a San Francisco audience was performed at the Metropolitan Theater, last evening. The play was entitled "The Great Challenge Lecture; or, a discussion on England's treatment of Ireland," between George Francis Train and Hardy Gillard.

The theater was densely crowded from gallery to pit—there was not even standing room when the curtain rose at eight o'clock.

The debate was opened by Mr. Gillard, a rather good looking gentleman, who possesses a decidedly English air, and whose *accent* is unmistakable. Mr. Gillard advanced to the front amid a storm of mingled applause and hisses, and proceeded to read from a large roll of manuscript. It was evident that the majority of the audience had not the slightest intention of giving the opponent of Mr. Train a hearing. The reading proceeded at intervals, the intervening time being filled up with shouts, yells, hisses, catcalls, cheers, derisive cries from indignant Fenians, and counter cries of encouragement from patriotic Britons. The gentleman had scarcely finished a page before "time" was called, and he took his seat. *What* he said while on the stage it is impossible to report. We cannot do the subject justice.

The great "star" actor now danced nimbly forward and commenced to repeat the lecture which he has delivered seventeen times in San Francisco. Here Mr. Train had his opponent at a disadvantage. The subject was one with which he was thoroughly acquainted, and he was not for a moment at a loss for language. His sympathising hearers cheered again and again, and, at the end of his speech, he threw himself back upon the sofa with that inimitable expression of self satisfaction, which George Francis Train alone is capable of assuming. And now came the richest part of this altogether rich performance.

Mr. Gillard arose to reply. The audience encouraged him at the outset by a storm of hisses. The orator assumed an attitude of severe dignity. Folding his arms upon his breast, "all calm and beautiful he stood" for full five minutes. Then, with a wave of the hand, he said: "Ladies and gentlemen"—— A pause ensued which was filled with shouts and hisses from the enthusiastic hearers. "Let him go on." "Give the man a show." "Shut up that English mug." "Go home and soak your head!" "Dry up!" "Go on" Suddenly a bright idea struck Mr. Gillard. He would try Train's tactics with the audience. Stepping back several paces, he rapidly strode to the front, and while an expression of concentrated bitterness convulsed his features, he stamped fiercely on the stage and thundered at the top of his voice, "Silence! I command *silence!* This house is MINE! I *will* be heard!" The uproar that ensued can neither be imagined nor described. The experiment did not work. There is but one George Francis Train and no feeble imitation will succeed. Mr. Gillard, however, persevered. He imitated Train's gestures; he rolled his eyes fiercely; he stamped violently; he sawed the air with his hand—it was of no avail. The reading was continually interrupted, and the speaker was only able, after Mr. Train had appealed to the audience for "more time" for Mr. Gillard, to make the somewhat astonishing point that "Ireland was better off than England, because *more troops were quartered there*, who, of course spent their money in the country!"

Train then spoke for thirty minutes in reply, repeating portions of his seventeen times spoken lecture, and in addition scoring Mr. Hardy unmercifully on the advantages derived by Ireland from the presence of British troops." At the conclusion of Train's remarks, he informed the audience "that the debate would be concluded to-morrow [this] evening at the same place, when the "distinguished orator" would possibly answer some of his [Train's] arguments.

During Mr. Train's speech he was loudly cheered, and one enthusiastic Fenian in the audience proposed to "hang Prince Alfred," when he arrived in this city.

SECOND NIGHT.

From the S. F. Call.

The second and last act of the Train-Gillard farce was played last evening, in the presence of a somewhat smaller audience than attended the evening previous. It is useless to report the "debate". Gillard apologised for England in the past, and tried to show that England of the present was doing better for Ireland. John Bright and the Disestablishment Laws were the principal crutches on which he leaned. He also apologized for England's manner of conducting the Abyssinian war, and said that Theodore's insulting proposal of marriage to Queen Victoria justified the commencement of hostilities. He halted through an evidently ill-written manuscript in presenting these points, and disgusted many who were disposed to encourage him in his first essay. Some one in the gallery with a strong English accent, addressed him substantially as follows: "This whole thing is put up. You appear on the stage as a representative for England, but you are far from being anything of the kind. You play off against Train, and Train against you, to make money. Train's a sweet duck, and you're a sweet duck. There's a pair of you." A good many in the audience thought the man in the gallery spoke very nearly the truth. In replying to Gillard, Train attempted to demolish Bright and Gladstone, and claimed that the Fenian movement and not the Gladstone Ministry was the cause of the Disestablishment measure. He plagiarized the Rev. Dr. Cahill's lines on the English Church, and claimed them as his own; after which he went into a fanciful and lengthy narrative of the Abyssinian war. Gillard got up to say a few words and succeeded in emptying a good many seats. After announcing that, so far as he was concerned, the debate was ended, he was squelched by some one calling him a "first-class hass," and inviting him to sit down. Then the "Great Incoherent" came up to time again, and again detailed his plan to capture British Columbia. He appeared to grow more and more frantic as he proceeded; and called for three groans for the British Consul, which were given, and invited his excited audience not to commit a breach of the peace when they passed the Consul's office—not to throw stones and break the windows—in a tone and manner which showed that he would be happy to have them act contrary to his advice. He announced that a young man named Curtis would on Thursday evening debate with him the Coolie and greenback question, he(Train) taking the affirmative on both. A large crowd of excited Fenians conducted George to his hotel, occasionally hoisting him on their shoulders in a way that must have been very uncomfortable.

"England will never Fight."

(From the New York Times.)

A most mischievous cry, re-echoed in this country among the demagogues for a number of years and now quite believed by large numbers of persons, is that "England will never fight." Whatever we may do to her, or however abuse her she is too much absorbed in trading, and has too many "dangerous classes" at home ever to fight. Under the ancient *regime* here of Southern Democrats the policy always was to drive England to the wall, and to come as near insult and menace as was possible. Even in the civil war her abstinence from any offensive movement was attributed more to her greed for gain, and a kind of mercantile timidity, than to her sense of justice. Her foreign policy in Europe for some years has been of the most peaceful not to say timid nature; her people have seemed to many here and on Continent to have somewhat lost the manly and warlike vigour they once had. A large majority in this country devoutly believe now that nothing could force Great Britain to blows. Look at her commerce, they say—open to privateers on every sea; her manufactures—destroyed through a want of customers by a war; her agriculture—insufficient to feed herself; her dangerous classes boiling with socialistic revolutionary elements; her Fenians—ready to revolt and separate Ireland from England; and Canada, open to invasion;—all this will always bind her over to keep the peace. "She dares not fight!" Mr. Wendell Phillips, in proposing to the American Government to revolutionize Cuba, says that if England dares to interfere, we "will land an army in Dublin, and cover the sea with Alabamas!" Even Mr Sumner must have felt something of this contempt for England, when he ventured to propose that she should make an humble apology for the Declaration of Belligerency, and pay a bill of costs which may be reckoned anywhere from $500,000,000 to $2,000,000,000.

Now nothing could be a greater mistake than such a sentiment about England. She is indeed the great trading nation of the world, and the one that has most to lose by war. She has the caution of an old veteran who knows what hard blows mean. But pluck is a tradition with every Englishman personally, and a national quality. Much as England loves money, and commerce, and peace, she would see every trading packet burned, her manufactures swept into the sea, and her rich fields made as Georgia was behind Sherman, rather than submit to a national indignity, or give up what she considers her just right. There is no doubt of this to any one who knows the English people.

She has the old fire which has blazed out on so many battle-fields, and which burned so recently in the veins of her offspring—who sacrificed the lives and wealth of a whole generation rather than suffer a wrong to triumph and be overthrown. Not a ghost of a party would be found on the side of peace in Great Britain if the nation once believed itself insulted and about to be forced to bear indignity.

The Liberals and Peace men would then be on the side of war. The "dangerous classes" would vanish as did our New York rowdies during our struggle; the Fenians would be of no more account than our disaffected Indians now; debt and expense would be forgotten, and the stored wealth and capital of centuries be poured out for work of destruction. Nor would the old motherland be a contemptible antagonist. Thirty millions of compact people burning for war form an enormous power. The British navy is a tremendous impediment; and the experiment of landing troops on the coast of Ireland, with a fleet of a thousand hostile vessels watching the ocean, we can imagine would be somewhat hazardous. Modern warfare is a contest of purses, and in such a struggle the little island would stand equal, at least, with any competitor.

The Loss of the Margaret and Zetus in the Gulf of St. Lawrence.

[From the Toronto Globe, June 1

The telegraph has already reported the wreck of two Quebec traders, namely, the Margaret, Captain Allen, of Aberdeen, from Sunderland, with a cargo of coalsand coke, and that of the bark Zetus, Captain Burn of Seith, and hailing from Hull, laden with coal. Both vessels struck on Carribean reef, 15 miles northeast of Cape des Monts, during a hurricane on the morning of Sunday, the 16th instant, and went to pieces within two hours, and, sad to relate, the crews of both vessels perished, with the exception of Mr. James Donald, mate of the Margaret, who succeeded in saving himself, and arrived at Quebec on board the schooner Mary, Star of the Sea.

HOLLOWAY'S PILLS.—These celebrated Pills are essentially useful in purifying the blood cleansing the stomach, gently stimulating the kidneys, and acting as mild aperients. A few doses of this purifying medicine set the foulest stomach right, remove all billious symptoms, steady the circulation, give strength to the muscles and composure to the brain and nerves. The Pills are so innoxious that they may be taken by persons in the most delicate state of health, and with marvellous effect. When the system has been enervated by over-indulgence, or exhausted by mercural preparations, these Pills are excellent restoratives, they expel the poison and enrich the blood.

Let the sick and suffering try them without delay. 583*

The True Medical Doctrine.

Nature when struggling with disease, indicates unmistakeably the kind of assistance she requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame the flaccid muscles, the melancholy visage, inform us as plainly as if each organ had a tongue, that a *medicated stimulant is needed*. It does not require the aid of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of HOSTETTER'S STOMACH BITTERS, a preparation uniting, in their highest excellence the properties of a stimulant, an invigorant and an alterative. Before three days have elapsed, from the taking of the first dose, a benificial change will be manifest in bodily and mental condition of the patient. The pulse will be stronger and more regular the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere and a complete revivification of the depressed animal and mental powers is certain. In cases of dyspepsia and biliousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin dissappear, and all the distressing symptoms which accompany disorders of the stomach and liver will rapidly subside. The cold of winter often intensifies these complaints by checking the perspiratory action, by which so much morbib matter is evaporated through the pores in milder weather, and therefore the BITTERS are especially useful to the dyspeptic and at this season. 2*

IMPORTANT CAUTION.—The unprecedented success of Rowlands' Macassar Oil during the last half century in promoting the growth, restoring and beautifying the human hair, has caused imitators to spring up in every possible variety; some so far copy the label as frequently to deceive the unwary; some offer to dispose of the recipe of a Macassar Oil (omitting Rowlands' name), with other recipes of a similar character for a few postage stamps, whilst others profess to manufacture the real (?) article at a considerably reduced price, if the public will only purchase it. Indeed, the name of these wretched purloiners from cheap and trashy receipt books is "Legion," and calls for more than usual care on the part of the purchasers in their selection of articles for the toilet. Messrs. Rowlands have complaints repeatedly from parties who have materially suffered from the use of these trashy compounds; and to frustrate to some exent such impositions, purchasers should see that Rowlands' name is on the wrapper of each bottle. —*Daily Telegraph*. 8

LIVER COMPLAINT is a disease much talked about and but little understood. Properly speaking, every derangement of the liver or bilious system, is a liver complaint. It is generally preceded or attended by costiveness. ro alterative, costiveness or diarrhea prsvails, The coarse particles of bile become more or less mixed with the blood, and obstruct the pores of the skin and small blood vessels giving rise to various diseases of the skin, such as erysipelas, itching, blotches, pimples, boils, sore eyes, and sores and ulcers of various kinds. Dr. Walker's Vegetable Vinegar Bitters can be safely recommended as a safe and certain cure, as well as preventive, for this class of ills. 16*

WALTHAM
WATCHES.
The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.
More than 400,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over others.
The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.
We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.
These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country, or in Europe, only those were finally adopted which severe testing by the most skilful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time keeping
Among the many improvements we would particularize:
The invention and use of a centre-pinion peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.
Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham Watches.
All Waltham Watches have dust-proof cap protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.
Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the budlic.
To CALIFORNIANS and others living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.
Every watch bearing the trade mark of Waltham, is guaranteed to be a horoughly reliable timekeeper.
To prevent imposition, buyers should invariably demand a certificate of genuineness.
The trade supplied by Messrs. R. B. Gray & Co., San Francisco, Cal., and generally for sale at retail by all respectable dealers.

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

623 KEARNEY STREET, CORNER Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis, in all its forms, Seminal weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs success fully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, Pad., Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street.

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from European and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Semina Emission—the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be cured AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Medical.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst *headache* and body cum have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders — Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M.D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M.D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

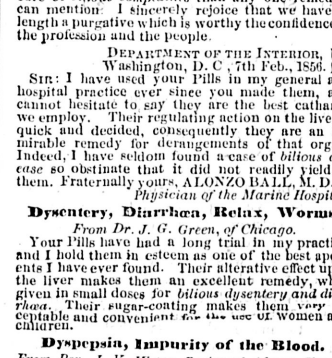

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.
